

BRAIN SOCIALISM! — DIVIDING MENTAL ENERGY SURGERY'S LATEST MARVEL

"If a man lacks brains, give him some of somebody else's!" Astonishing new operations are being performed, "evening up" the brain power of defectives with excess energy of super-normal men and women!

New York, May 17.—Brain socialism! Is the time at hand when all humanity's mental wealth is going to be equalized by drawing off the superlative mentality of highly stimulated brains, and infusing it into the defectives, the subnormal and the backward children, hitherto a menace to society?

These are the amazing possibilities opened up by an epoch-making operation just performed at St. Mary's hospital in Brooklyn.

Side by side on two operating tables lay a high-strung, mentally over-active woman of a well-to-do family and a backward child of six years.

Skillful surgeons removed part of the enlarged thyroid gland, which had produced a goiter on the woman's throat, and transplanted it to the boy's throat. The operation was over in half an hour.

Within a few days the woman's former neurotic tendencies were notably diminished, while the boy at the end of 15 days had developed clear speech and an active brain in
